

I would like to file a formal complaint with the FCC regarding Sinclair Broadcasting forced airing of a clearly partisan video criticizing John Kerry. I am ashamed that this country would allow such a thing. Whether it was a piece in favor of or against John Kerry is not the point for me. It is that they would have the power to exert their influence under the name of "news" on our democratic process. If this is allowed to happen unchallenged I will lose all trust and confidence in our news media and our power to regulate it fairly.
